

My Words Toolbar is a browser toolbar that helps you to copy and learn vocabulary from the web.

Download My Words Toolbar from:

http://mywords.ust.hk/mw_toolbar/

My Words Toolbar is a browser toolbar that helps you to copy and learn vocabulary from the web. You can download the **FREE My Words Toolbar** for Internet Explorer, Firefox or Netscape Navigator 9 from <http://mywords.ust.hk/>. After you install this toolbar, you can access many to the features of **My Words** on any web page with just a mouse click. You can also save words you want to learn to your personal word list in **My Words**.

To add a word to My Words:

On any webpage, highlight a word or phrase and in the popup, click "Add to My Words" OR enter a word or phrase in the toolbar and click the "Add" button.

Other features:

Navigate to the My Words web site with one click:

Highlight a word or phrase and click to open various resources in the popup:

Highlight a word or phrase and click "Pronunciation" in the popup:

Highlight all recurrent words or phrases on any web page:

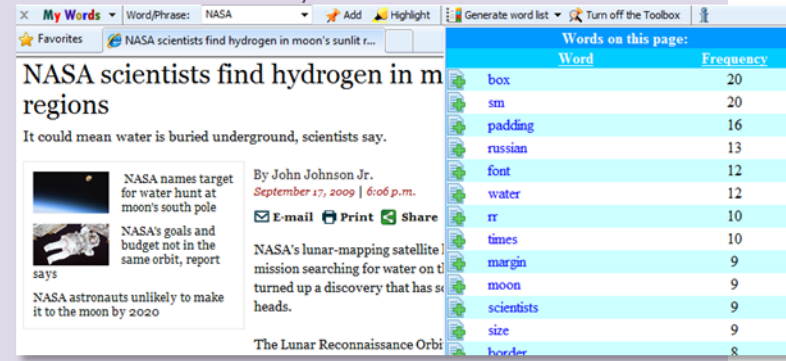

Enter the word in the text field of the My Words toolbar and click the button "Highlight"

The matching words on the web page will be highlighted in **yellow**.

Generate a word list of all the words on any web page:

Click the button "Generate word list". Every word on the webpage and their frequencies will be displayed. Click on to add the word to My Words.

Your feedback is very welcome!
